MEMORANDUM FOR: Director of Data Processing

FROM: Don I. Wortman
Deputy Director for Administration

Bruce:

For your information, following is a quote from the EXCOM Planning Paper #5, "Third World Instabilities":

"Data Processing

"Since the information inflows on the Third World will be increasing substantially, CIA will need to upgrade the data storage and manipulation capabilities needed to make use of this information. This means:

- "o Expanding data storage facilities.
- "o Expanding and training individuals to become data specialists. This may even entail developing an alternative career path for individuals whose prime function would be to establish, update, and maintain the integrity of data bases. (S/NF)"
